

Bhuvan H.V

Data Science Engineering Student

Professional Summary

Aspiring Data Science Engineer with strong foundations in Python, statistics, machine learning, and data analytics. Passionate about solving real-world problems using data-driven approaches and developing intelligent software solutions.

Education

B.E. in Data Science Engineering (Pursuing)
XYZ Institute of Technology
Expected Graduation: 2028
CGPA: 8.7/10 (Sample Data)

Technical Skills

Python, SQL, Machine Learning, Data Visualization, Pandas, NumPy, Scikit-Learn, Power BI, Tableau, Statistics, Excel

Projects

- AI-Based Crop Disease Detection System
- Public Infrastructure Complaint Analysis Dashboard
- Student Performance Prediction using Machine Learning
- Real-Time Weather Data Analytics Platform

Certifications

- Python for Data Science
- Machine Learning Fundamentals
- Data Visualization with Power BI

Achievements

- Participated in Data Analytics Hackathons
- Developed multiple academic software projects

Languages

English, Kannada, Hindi
